

To Whom It May Concern,

I have had the opportunity to work alongside 24Hr HomeCare over the past year. As an eldercare advisor, I frequently consult with families during challenging times. I know that I can count on 24Hr HomeCare to be a resource that can provide comfort to the families that I serve during such times of crisis.

While I have many homecare companies that I can refer to, I always consider 24Hr HomeCare as a resource since the staff are always quick to respond to any question or concern that I may have and reach out to my families immediately. The service levels that the staff provides are the top in the industry. The "no hourly minimum" feature is also an asset as some families may just need a brief caregiver visit to get started, which most companies do not offer.

I am happy to serve as a reference for this organization.

Sincerely,

Donlyn Young, Eldercare Advisor
