To Whom It May Concern,

Having worked at Baylor, Scott & White for over eleven years, I have occasionally been asked by our patients for the name of agencies who can arrange quality care for them while in the hospital and at home after discharge, to assist with meal preparation, activities of daily living, personal assistance and transportation for them. I'm happy to write this letter of recommendation for 24Hr Homecare and specifically Ryan Harp and Brad Gilmore. Our Premier Services patients have often commented on Ryan and Brad's attention to detail in providing the kind of caregivers that they need.

Ryan and Brad have been flexible and very accommodating with these requests ...sometimes at the last minute or after hours.

I don't hesitate at all in giving my full support of 24Hr Homecare to be used as a resource for patients or community partners who may be in need of this service.

Please feel free to contact me with any questions you may have.

Best,

Leslie Shelton MS, LPC
