To Whom It May Concern,

It is with much enthusiasm that I recommend 24 Hour Home Care as a non-medical home care provider!

24 Hour Home Care provides professional caregiving services covering all activities of daily living including: personal care, medication organization, meal preparation, transportation, and light housekeeping.

As a Care Manager for Scripps Hospitals, I work with many patients who need professional caregiving services post discharge from a hospital or skilled nursing settings. 24 Hour Home Care has exceeded all expectations as a home care provider. I have had the pleasure to work with Angela Silva and Diego Chacon who are members of the San Diego team. Most recently I have been working with Angela who is always able to quickly and efficiently coordinate in-home care for any patient I refer to her. If a patient needs an urgent service, Angela and the San Diego team can be at the patient's bedside coordinating care within the hour. With the help of 24 Hour Home Care Scripps Health can provide a safe discharge plan individualized for each patient.

Scripps Hospitals are committed to caring for their patients beyond the hospital stay. I know with 24 Hour Home Care patients will be receiving the necessary services needed in order to return home alone or with their family.

A handwritten signature in blue ink that reads "Marilyn Park".
